SUMMARY

Highly motivated software engineer with a strong passion for advancing in the field of software development. Seeking an opportunity to make a significant impact by delivering state-of-the-art software solutions. With the ability to learn new languages quickly and communicate effectively in a remote team through projects at Microverse, I possess a wide range of skills including expertise in JavaScript, React, Python, and Ruby. Aiming to bring innovation to a forward-thinking tech company or startup environment.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3
Back-End: Ruby, Ruby on Rails, Python, Django, MySQL, PostgreSQL
Tools & Methods: Git, Github, Gitflow, Render, Jest, RSpec, TDD, Chrome DevTools
Professional: Remote Pair-Programming, Teamwork, Mentoring, Self-taught, Communication, Time management, Hard work, and Leadership

---

EXPERIENCE

PAYCAREHQ   Remote
Software Developer   October 2023 – Present
[Courses App](#) — An app created using Python and Django. It can also allow users to create courses and also manage the topics under every course. Users can use it to keep track of their tech learning process.
Built with: CSS3, Python3, and Django

MICROVERSE   Remote
Mentor (Volunteer)   January 2023 – Present
- Mentor 2 junior web developers per week, providing technical support through code reviews via Zoom and Slack.
- Propose improvements to code organization to improve code quality and overall performance by at least 30 percent.
- Provide advice and tips to over 5 students who maintained motivation and longevity in the program.

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full-stack Web Developer   November 2022 – Present
[Budget App](#) — An app created using Ruby on Rails for users to make bills. Users can also create items under these bills with their corresponding amounts. It can be used to track the spending of an individual.
Built with: CSS3, Ruby, and Rails

[Tutoring App](#) — A single-page app that enables users to manage classes effortlessly, including adding, deleting, and viewing class details. It also provides reservation functionality, allowing users to make reservations and view their reservation details.
Built with: JavaScript, React, Redux, Ruby, and Rails

EDUCATION

MICROVERSE   November 2022 – Present
Remote Full Stack Web Development Program, Full Time
- Spend over 50 hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with JavaScript, React, and Redux.
- Develop skills in remote pair programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

BAYERO UNIVERSITY, KANO   July 2010 – April 2015
Bachelor of Engineering, Electrical Engineering
- Scored a CGPA of 4.30/5.00

NIGERIAN DEFENCE ACADEMY, KADUNA   August 2021 - August 2023
Master of Engineering, Power Systems and Machine Engineering (In progress)
- Scored a GPA of 4.70/5.00
